

The \$27 million dollar bond includes a combination of repurposing of existing facilities and new construction.

Repurposing/Facilities Renovations (\$6,521,784)

- ▶ Current 1969 Cafeteria → Elementary Multi-Use Area
- ▶ Current 1978 Gymnasium → Cafeteria, SPED Skills, Stage
- ▶ Current Bus Maintenance Facility → OAP Practice Area

New Construction (\$19,069,532)

- ▶ Additional 9-12 Academic Wing
- ▶ Multi-purpose Gymnasium
- ▶ Additional Parking

▶ DID YOU KNOW?

This is the time SISD pre-k students go to lunch in our 1969-era cafeteria due to overcrowding due to the highest enrollment in the district’s history. The proposed repurposing of the current 1978 “new gym” to a cafetorium would more than double the space, allow for a larger kitchen/prep area, a modernized/more efficient serving line, and give students a more reasonable lunch time.

Current 1969 Cafeteria → Elementary Multi-Use Area

- ▶ Existing space: 5,500 sq/ft—proposed space: 12,000 sq/ft
- ▶ Lunch runs from 10:30 am to after 1:00 pm overcrowding
- ▶ 1969-era kitchen and serving line too small
- ▶ Would convert to an indoor recess/PE facility for inclement weather
- ▶ Stage would remain for smaller Elementary events like plays, spelling bees, math bees, etc.

Current 1978 Gymnasium → Cafeteria, SPED Skills, Stage

- ▶ Central location to all academic wings
- ▶ Gain space for new kitchen & efficient, modern serving line
- ▶ Performance stage would be added with improved acoustics for larger events like JH Band Concerts & awards events
- ▶ The SPED Skills classrooms would be moved into retrofitted classrooms in the dressing facilities with access to a washer and dryer
- ▶ The proposed cafeteria space will provide a greatly needed meeting/program area for students, staff, and organizations

Current Bus Maintenance Facility → OAP Practice Area

- ▶ Convert existing facility into a “Black Box” theatre with soundproofing, a practice/performance stage, and set up for lights and audio
- ▶ Secure storage for props, costumes, and equipment will also be included in the renovation
- ▶ One Act Play is a growing and award-winning program the district wants to grow and support

Additional 9-12 Academic Wing

- ▶ Resemble the current HS wing—17,000 sq/ft
- ▶ Connected to current Commons Area
- ▶ 2 science classrooms with a shared lab between
- ▶ Ag classroom located at the south end of the building closest to the ag shop
- ▶ Approximately 8 proposed classrooms & minor office space
- ▶ Major set of student restrooms separated with a pull-down gate, allowing the restrooms to be shared for gymnasium & academic wing use

Multi-Purpose Gymnasium

- ▶ Larger footprint
- ▶ One competition court converts to 2 practice courts
- ▶ Increased event space with additional seating capacity
- ▶ Expanded locker rooms
- ▶ Girls (JH/JV & Varsity) all sports except softball
- ▶ Boys (JH/JV & Varsity) all sports except baseball
- ▶ Used for basketball and volleyball play

Additional Parking

- ▶ 100+ spaces located east of the Employee Child Care Center on Crouch Street
- ▶ To be used for 9-12 student/staff parking during the academic day and gym parking after school
- ▶ Relieve parking stress on the front lots by expanding elementary parking spaces into the secondary lot

▶ DID YOU KNOW?

The number of years Santo ISD Board of Trustee’s has committed to paying off the \$27 million in bonds, if the proposal passes, instead of 25+ years chosen by many districts for financing projects. Their goal will save you, the SISD taxpayer, tens of millions of dollars in interest.
